## ARMORCORE

In the hard fought battle to protect resin-reinforced bath products from the hazards of transportation, installation and daily use, Clarion has time and again pioneered methods to build stronger, more resilient bath units.

With ARMORCORE™, we've changed the game. Years in the making, this exclusive technology turns layers of material into a single, solid structure that withstands a thousand pounds of pressure without breaking a sweat. It's a breakthrough that redefines bath manufacturing and advances the entire industry.

### Chemically Bonded

Unlike wood or corrugate, ARMORCORE's™ resin-based formulation chemically bonds to layers of fiberglass lamination forming a rock-solid single-piece structure.

- Eliminates separation
- Impervious to moisture and freezing
- Bottoms tested to 1000lbs of pressure with no cracking.

## AcrylX

AcrylX™ has a visibly true white, deep lustrous finish that can only be achieved with an acrylic surface. We've upgraded the value of the everyday product.

Whether in a warehouse or a new house an AcrylX™ product will resist scratching, cracking and chipping and will maintain a "factory-new" finish over its lifetime.

AcrylX™ UV properties resist fading, low porosity helps maintain luster and makes cleaning easier, and other natural properties make it less susceptible to chemicals. All enhancing value and reducing everyday issues.

AcrylX™ with the strength of ArmorCore™ eliminates the hassle of damages.
