"A Fine Tradition In Wood"

about us

Recognized for its distinctive lines and excellent proportions, Heister House Millworks mouldings have been a popular choice among building owners at large. The subtlety and attractiveness of our moulding lends a perception of depth and richness like none other. Whether you value uncomplicated beauty and simplicity or are partial to the intricacies of a more complex design, Heister House has a suitable option for you. Our offerings include base mouldings, chair rails, paneling, crowns, and more.

Visit our online portfolio at www.hhmillworks.com.

Heister House Millworks was granted a Forest Stewardship Council (FSC) Chain of Custody Certification, which means we can now offer FSC-certified millworks products. This third-party certification serves as an independent, credible verification process for ensuring the wood we use for your FSC project comes from a responsibility managed forest. It also certifies our ability to track FSC projects throughout all phases of our production process in a way that meets the guidelines established by the FSC.
